Comments and Recommendations

I find your exploration of authentic assessment to be highly valuable, though it requires greater methodological and contextual precision before publication. Please revise your abstract to explicitly identify the Baganga South District of Davao Oriental as the research locale and specify that the study involved ten educators. Furthermore, your summary must be expanded to clearly delineate the core challenge themes such as diverse student needs and institutional barriers alongside specific teacher strategies like time management and peer collaboration.

REVIEWER 1

Specific Comments and Recommendations

First, explicitly state that ten educators participated in your research within the methodology section. Second, ensure that the abstract clearly lists the three specific challenge themes you identified. You need to mention diverse student needs, demanding curriculum and time constraints, and institutional barriers. Also, specify the exact geographic locale directly in the abstract. Add Baganga South District of Davao Oriental, Philippines to ground the study. Incorporating these details will make your methodological approach undeniably robust.

General Comments and Recommendations

Great exploration of authentic assessment. The qualitative method is sound. However, the abstract needs explicit mention of the exact participant number and specific challenge themes. Fixing this will provide better context for readers.

REVIEWER 2

<u>Specific Comments and Recommendations</u>
You must put the exact location inside the abstract. State that the study happened in Baganga South District. The text also needs a clear mention of the participant count. Tell the audience that ten teachers joined the research. Next, list the exact teacher strategies in the summary part. Add time management and peer collaboration to the paragraph. The readers will appreciate these exact details.

<u>General Comments and Recommendations</u>
I read your paper about classroom tests. The topic holds great value for teachers today. The text lacks exact facts right now. Please add the details above to perfect the document.
